As part of our ongoing effort to make quality dental care accessible to everyone, we're excited to present our in-house dental coverage plan. We're aware that the prohibitive costs and inconsistent coverage of dental insurance leave many patients without the care they deserve. The Stetson Village **Premier Plan** is affordable for individuals as well as families of any size and provides for both preventative and restorative needs. Statistics show that traditional dental insurance doesn't make sense for most American families when it's not provided by an employer, but that doesn't eliminate their need for oral health care. Our hope is that our **Premier Plan** will make it possible for more families to receive the care they need, including regular preventative appointments.
